The 5th International Conference on Real-time Intelligent Systems (RTIS 2023) October 09-11, 2023, University of bedfordshire, UK www.socio.org.uk/rtis

CALL FOR PAPERS

Lecture Notes in Networks and Systems by Springer https://www.springer.com/series/15179

Earlier conferences took place in Taipei, Taiwan (2018); Casablanca, Morocco (2017); Beijing, China (2016). The 5th RTIS will take place at the University of Bedfordshire, UK.

Over the last few years, real-time intelligent computing has radically transformed the human lifestyle. Research on real-time intelligent systems is multi-disciplinary, exploiting concepts from diverse areas such as big data processing, computational intelligence, location-based services, recommendation systems, and multimedia processing. In today's highly dynamic environment, analysing data in real-time is a must to understand how systems process data, reason the outputs, and anticipate trends in intelligent computing. To this end, this conference will serve as a platform to manifest the ongoing research in the field. Thus, RTIS welcomes theoretically grounded, methodologically sound papers that address aspects related to topics, such as:

Artificial Intelligence Techniques

Artificial Intelligence and Data mining Streaming data, streaming engines Trace-based intelligent real-time services Adaptive vision algorithms Location-based services Intelligent Robotic Systems Collaborative Intelligence Processing Intelligent Databases Data capture in real-time Data quality and cleansing Intelligent Data Analysis Intelligent Database Systems Big Data systems and applications for high-velocity data Intelligent Information Systems Privacy and Security in Intelligence Software Engineering Solutions Intelligent Soft Computing Real-time multiprocessor systems Internet of Things Architectures for Intelligence Real-time distributed coding Smart services and platforms

Real-time modelling user information needs Wireless Communication Real-time intelligent communication Real-time intelligent network solutions Mobile Smart Systems Broadband Intelligence Cloud Computing and Intelligence Collaborative Intelligence Analysis in domains such as energy, sensors, Expert Systems Smart Life Systems Decision support systems in real time Multi-agent Intelligent Systems Multilingual information access Recommendation systems Real-time intelligent, alert systems Real-time remote access systems Intelligent Transportation Systems **Critical Real-Time Applications** Hybrid Intelligent Systems Real-time noise removal systems Event-driven analytics Intelligent Fuzzy Systems Machine translation in real time OLAP for real-time decision support Crowdsourcing and crowd intelligence

Submission, Proceedings

Papers must be submitted online through *OpenConf (https://www.socio.org.uk/rtis/paper-submission/)*. Author instructions and LaTex2e (preferred) and Word macro files are available on the submission page. Submitted papers should be within 14 pages (long papers) and eight pages (short ones), including figures, tables, and references. Authors of accepted papers are required to transfer their copyrights. For a paper to appear in the proceedings, at least one of the authors MUST register for the conference by the camera-ready submission deadline with full registration.

The proceedings will be published in Lecture Notes in Networks and Systems by Springer.

Extended versions of the conference papers will be considered for publication in the below journals.

Journal of Computational Methods in Sciences and Engineering (JCMSE)

Future Internet https://www.mdpi.com/journal/futureinternet

Data https://www.mdpi.com/journal/data

(For Data and Future Internet, the discounted APC is applicable, which is 50%)

Journal of Digital Information Management

Journal of Intelligent Computing

Venue

The venue is the University of Bedfordshire, UK.

Important Dates

Full Paper Submission:	July 20, 2023
Notification of Acceptance/Rejection:	August 15, 2023
Registration Due:	September 15, 2023
Camera Ready Due:	September 15, 2023
Workshops/Tutorials/Demos:	October 08, 2023
Main conference:	October 09-11, 2023
Post-conference proceedings:	October 25, 2023

General Chairs

Ricardo Rodriguez-Jorge, Jan Evangelista Purkynì University, Czech Republic Martín LÓPEZ-NORES, University of Vigo, Spain

Program Chairs

Yao-Liang Chung, National Taiwan Ocean University, Taiwan Pit Pichappan, Digital Information Research Labs, India

Workshop/Special Issues Chair

Ezendu Ariwa, University of Warwick, UK
